

A Call to Action

The New Mexico Green Party is a grassroots organization of citizens who have come together to work for political and social renewal. The New Mexico Greens are an autonomous statewide group, which recognizes the national Green program but is in no way bound by the decisions of Greens outside New Mexico. The New Mexico Green Platform is an evolving document, a living "work-in-progress" that expresses our commitment to creating meaningful and enduring change in the political process.

Our Party's first priority is to "value-based politics," in contrast to the politics of exploitation, consumption, and non-sustainable competition.

We believe in an alternative, independent politics, and active, responsible government.

We believe in empowering citizens and communities. We offer hope and a CALL TO ACTION.

This is our challenge. If you want to preserve New Mexico's beautiful land and cultural diversity; if you are concerned with economic dependence on outside forces and uncontrolled growth; if you are troubled by the influence of powerful special interests over politics – then you belong in the Greens.
