

How to join the NMGP Email lists

We have several email lists that will allow you to participate in the party to the extent that you may wish. All of these lists are closed subscription lists for the benefit of members of the Green Party of New Mexico. If you are a registered Green, or if you are dedicated to supporting the Green Party but are not qualified to register to vote, you can join us.

To join our lists you must read our rules and agree to abide by them before joining. We must also ask that you fill out the form at the bottom of the page letting us know how you are and specifying which lists you want to be a part of.

Here is a brief description of the purpose and guidelines for each of the lists.

GREEN EVENTS - is an announcements only list, with the purpose of disseminating information about Green Party activities, events and meetings. This is NOT a discussion list.

THE GREEN FORUM - an open topic discussion group in the form of an ongoing e-mail subscription list. When you subscribe to the Green Forum you will receive e-mails from others in the group and also be able to post your own comments. The Green Forum is an open discussion and often has lively debate. While we do post announcements there it is not monitored or controlled by the NMGP and the topics covered and opinions rendered DO NOT necessarily reflect the opinions of the New Mexico Green Party.

GREEN BIZ - The Green Business list is a closed subscription list consisting of Green Party members with the purpose of allowing Green Party committees and activists to post minutes and other party related notices and to discuss party business. This list is not to be an open forum for floating general/outside issues or news items - it is a green business list.
