

New Mexico Green Party Webweaver's Mission Statement

A group of volunteers has organized for the purpose of creating and maintaining an official New Mexico Green Party Web site. We have decided to call ourselves Webweavers as we try to link the various threads of the Green Party's goals and actions. Our mission is to provide a web site representative of the interests of the members of the NMGP. Toward our goal it is critical that we solicit comments, suggestions, ideas and questions from the membership at large regarding the content and features of the site.

Remember, like this mission statement, the NMGP Web site must be a work in progress built on the ideals of democracy, the freedom of speech, and consensus among the membership. Produced and maintained by WE Concepts Inc. E-mail us about this site, additions or questions.
