

GREEN PARTY OF NEW MEXICO

Rescind Bush War Powers

Resolutions have been introduced to rescind the sweeping war powers granted to President Bush in October 2002:

In the House of Representatives the Defazio/Paul bill, House Joint Resolution 20, would repeal the authorization for use of military force against Iraq that was given to President Bush. In the Senate the Kennedy/Byrd bill, Senate Resolution 32, would require the President to go back to Congress for approval on any military action; it also asks for full US support for the UN weapons inspection program.

Time is critical!

Call or write you Senators and Congressperson and ask them to support these resolutions.
